

## Krumkager (Krumkaker)

Some recipes come with a little experience written right into them. This handwritten Krumkaker recipe calls for eggs, cream, butter and cardamom, cooked the traditional way on the stovetop in a krumkake iron. Best of all is the note added at the bottom explaining why the original cup of butter was cut in half: "the grease runs out on the stove."

4 eggs, beaten

1 c. sugar

1/2 c. melted butter

1/2 c. whipping cream

pinch of salt

Cardemon

2 1/2 c. flour

Bake in iron on  
top of stove.

Use 1 small tsp. to each iron.

It calls for 1 c. butter, but the grease runs out on the stove.
