

Quick and Unusual Cottage Salad

Stir to dissolve. Add well drained fruits, flavoring, and whipped topping or Cool Whip which has been prepared according to directions. Spoon into pretty bowl and refrigerate until time to serve. The salad becomes firm, but not hard enough to turn out as molded salad. (Different flavored gelatins, fruit flavorings, and any fruit desired may be used.)

Recipe Bio

Quick and Unusual Cottage Salad lives up to its name. Cottage cheese gets mixed with dry orange gelatin, pineapple, Mandarin oranges, and whipped topping, then chilled until firm—but not quite firm enough to become one of those ambitious molded salads. The handwritten recipe also invites plenty of experimenting with different gelatin flavors and fruits, so “unusual” can go in just about any direction.
